# MB-10 Tablets®

## Disinfectant and Sterilant

**Disinfectant, sanitizer, and sterilization.** MB-10 Tablets® deliver powerful results in Chlorine Dioxide Tablet Technology. *MB-10 is the only solid disinfectant on EPA's List N with an Emerging Viral Pathogen claim (under the ingredient \*Aseptrol®\*) and is featured on the Center for Biocide Chemistries' list of **Novel Coronavirus (COVID-19) Fighting Products.***

### FEATURES

- Ready to use in minutes. MB-10 maintains one of the broadest labels in the research industry.
- Non-corrosive, safe to use and dispose, MB-10 Tablets have zero cytotoxicity. MB-10 Tablets® are an excellent eco-gentle choice, breaking down harmlessly in the environment.
- The most cost effective disinfectant to ship
- Saves valuable space in distribution plants, vehicles and facilities.
- Does not leave a product residue when dry.
- Tough on odors
- Mix with tap water according to application, using just the right amount of product for each job
- Economical and lower costs per ounce than most RTU (ready to use) products.
- Available in two convenient sizes: 1.5g (one tablet makes 32oz at 100 PPM) and 6.0g (one tablet makes 1 gallon at 100 PPM)

\*Active Ingredient: Aseptrol®, EPA Registration Number: 70060-19, BASF Corporation Manufacturer  
Canadian DIN 02279673

**EFFECTIVELY KILLS  
CORONAVIRUS  
COVID-19**
