• Leg support & down pull is an extension that can be installed on our black pull floor pullers, air and battery operated.

• Allows a much stronger suction for big dent pulls

• Allows you to perform down pulls like rocker panels and any low surfaces.

**PUL2293****250.00 USD**

LIGHTWEIGHT FLOOR PULLER

PULLERS & LIFTERS

- Camauto lightweight floor puller is your best solution for hard to light pulls
- Can be used by PDR technicians and bodyshops as a mobile puller without any floor pots, using the suction plate
- 2 to 4 feet adjustable height for different height pulls

PUL2265
1,550.00 USD

BASIC LATERAL TENSION PUSH/PULL TOOL

PULLERS & LIFTERS

- Tension push/pull tool is the perfect solution to create lateral tension with the best dent reduction results.
- Heavy duty: made from steel and aluminum allowing PDR and GPR technicians to perform strong lateral pulls
- Strong telescopic design
- Easy to use: no tabs needed.
- Comes with 5 additional adaptors in different lengths and a connector
- Swivels in both directions

PUL9013
560.00 USD

LATERAL TENSION PUSH/PULL TOOL

PULLERS & LIFTERS

- Heavy duty: Steel and aluminum construction for strong lateral pulls by PDR and GPR techs.
- Durable telescopic design.
- Extra leg support prevents dents when applying lateral tension.
- Easy to use: Apply glue to the inner feet and use a power drill to push or pull - no tabs needed.
- Includes 5 additional adaptors of different lengths and a connector for various panel surfaces and secondary support.
- Swivels both ways: Move easily to free up space and place a bridge puller for direct dent pulls.
- 4 padded feet for protection.

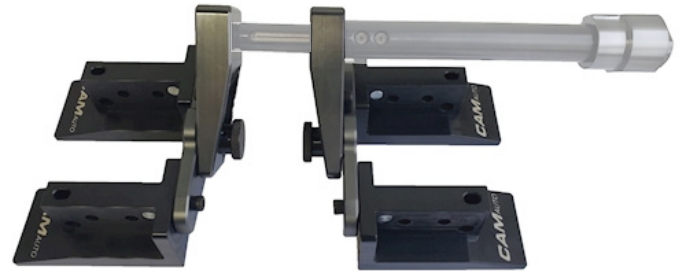

PUL9010
920.00 USD

DOUBLE FEET FOR LATERAL TENSION PUSH/PULL TOOL

PULLERS & LIFTERS

- 4 padded feet that can swivel to form up to 90° angle so it can fit on any panel surface shape.

PUL9011
220.00 USD

- Allows a much stronger suction for big dent pulls
- Allows you to perform down pulls like rocker panels and any low surfaces.

PUL9015
140.00 USD

PULLING ROPES SET OF 2

PULLERS & LIFTERS

- Pulls up to 24200 lbs (11t)
- 5/16" (8mm)

PUL9019
60.00 USD

LATERAL TENSION PUSH/PULL TOOL JV ADAPTOR**PULLERS & LIFTERS**

- Lateral tension push/pull tool JV adaptor provides a constant and even pressure.
- The technician can now (load) the panel and gently message the surrounding secondary impact crowns and kinks, as the dent moves in a slow controlled, more precision like manner, giving complete "user" control over "start and stop" movements.

**PUL9012****95.00 USD****PROLIGHT PULLER/LATERAL TENSION TOOL CONNECTORS****PULLERS & LIFTERS**

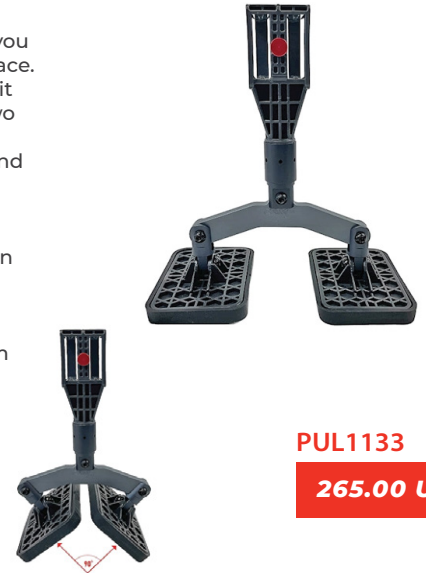

- Prolight puller/lateral tension tool connectors help you connect your proligh bridge puller to your lateral tension push/pull tool so you can perform a direct pull, while applying lateral tension at the same time.

**PUL1156****75.00 USD****ELITE PRO LIGHT PULLER****PULLERS & LIFTERS**

- Camauto elite pro light puller is our most popular and best seller puller
- Can be used on 80% of all dent shape and size, on steel and aluminum panels
- Lightweight puller with an aluminum bar, aluminum puller, and 2 aluminum and plastic padded feet.
- Loaded with a bearing between the pulling device and the pulling bar
- Can be used with an impact wrench
- Height adjustable feet.
- Swiveling feet & padded feet for a maximum panel and paint protection.
- Universal hook adaptor comes with a hook and a base that can be used on camauto or any other tab

**PUL1155****900.00 USD****ELITE PROLIGHT PULLER DOUBLE FEET****PULLERS & LIFTERS**

- Camauto elite double feet can be installed on the pro light puller, and best used when you don't have a solid panel surface. The double feet will then split the pulling pressure from two to four pressure points, providing greater support, and avoiding any panel damage.
- Lightweight plastic and aluminum feet
- Swiveling feet. Both feet can swivel in all directions, and bend up to 90° to fit on any panel surface.
- Padded feet for a maximum panel and paint protection.

**PUL1133****265.00 USD****LONG LEVER PULLER 4 FEET****PULLERS & LIFTERS**

- Camauto long lever puller is your best solution for very strong pull
- Long leverage bar (4 feet) allows you to make very strong pulls with minimal energy required.
- Best used when the job requires a very strong pull, and you don't have enough space on the panel to use two feet.
