

# Are you starving your spray gun?

*Problem solved...with VCS™!*

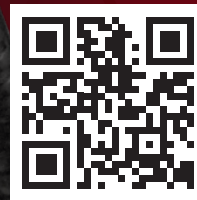

**Introducing the ULTIMATE  
in flow and versatility.**

**SEM's New Versatile Cup System  
Delivers UNRESTRICTED Paint Flow.**

- Increases versatility, consistency and color match.
- Hard cups and vented liners available in 13, 22 and 32 oz. sizes.
- Mix ratio and blank hard cups available.

*Turn the page to see how your paint cup is  
restricting paint flow and creating problems.*

**VCS™**  
VERSATILE CUP SYSTEM

# Are you starving your spray gun?

**See how other paint cup systems can restrict paint flow.**

This test is a visual demonstration of fluid restriction issues associated with paint cups.

**Competitor A:** The vented hard cup system dispensed all fluid in the cup but produced a stop and go “glugging” restriction, creating inconsistent paint flow.

**Competitor B:** The liner system created a highly restricted condition in the liner, showing that it would starve the spray gun.

**The final 8 oz. of fluid in the cup would not flow out of the cup.**

**VCS cup:** The hard cup and vented liner system dispensed all fluid in the cup, with the vent open.

It produced an unrestricted flow of fluid for improved consistency and color match.

The **VCS** cup system can be used at any angle, even upside down.

**VCS**  
VERSATILE CUP SYSTEM

## The VCS hard cup and vented liner design increases versatility, consistency and color match.

### HARD CUPS

Impact resistant polypropylene is durable and easy to clean. Unique slots in base lock vented liner in place for easy lid removal and refilling.

Available in 32, 22, and 13 oz. sizes, with or without mixing ratios.

### VENTED LINERS

Can be used vented or sealed:

**VENTED USE:** delivers unrestricted paint flow for improved consistency and color match.

**SEALED USE:** for painting upside down in wheel wells, rocker panels and hard to reach areas.

Available in 13, 22, and 32 oz. sizes.

### LIDS

Four quick lock tabs make lid removal easy. **No bulky screw-on collar.**

Built-in filter is removable for thicker materials like primer filler.

Fits all VCS cup sizes.

### ADAPTERS

Wide mouth stainless steel adapter available for most professional spray guns.
